

Your chance to sparkle - Overseas Candidates

Candidates seeking employment from overseas should first check with the professional governing body in the UK to establish if their qualifications are recognised. It is highly probable that even if your qualification is recognised, you will still require additional support and supervision by way of the Overseas Nurses Programme (ONP) prior to obtaining UK registration.

If English is your second language then it will be necessary for you to prove proficiency through the British Council's International English Language Testing System (IELTS). The accepted score is between 6.5 and 7.0.

For further information on this please refer to the following web sites:

For Nurses, refer to the NMC link and look for overseas nursing programme at www.nmc-uk.org.uk

For Allied Healthcare professionals please refer to the HPC link look for International www.hpc-uk.org

Healthcare professionals from within the EU can seek employment free of visa and work permit restrictions, however they must still register with the appropriate governing body.

For professionals who are already registered with the appropriate UK governing body.

Healthworks will assist you in finding suitable permanent employment and source accommodation if necessary.

As independent career advisors we are able to provide a range of career options and job opportunities for professionally qualified personnel.

Our client portfolio include major independent and NHS Hospitals, Clinics, and Nursing Homes, Pharmaceutical and Medical Manufacturing Industries.
